

Airbus A300 B4F

The A300 B4F is a medium freight wide-body aircraft ideal for transporting large cargo. The main deck has capacity for 20 2.23 x 3.17 m pallets. The lower forward deck has capacity for 4 2.23 x 3.17 m pallets and the lower aft deck can carry 4 1.53 x 3.17 m pallets, as well as 2 bulk cargo compartments of 10.5 cubic meters and 5.5 cubic meters. It requires a high-loader for loading/unloading cargo from the main deck so cannot fly to smaller airports not in possession of the necessary equipment.
